

# **ITS Technical Notes**

## **Iowa State University Windows Enterprise Announcement**

### **April 18, 2007 – Enterprise Windows Domain Schema Updates on May 12**

ITS will be performing a "schema update" to the Enterprise Active Directory on **Saturday, May 12, 2007** (starting at approximately 9:30 AM).

This process is expected to take less than an hour. No domain controllers will be taken out of service and no significant service outages should occur. No changes on Enterprise domain member systems (or other IT admin actions) are required.

For a discussion of the reason for this update, refer to the "Unix Identity Management" section of the April 13 WinAdmin meeting notes:
