## **Iowa State University Windows Enterprise Announcement**

**July 24, 2007 – Enterprise WSUS Upgrade July 31, 2007**

The Enterprise WSUS server (sus.iastate.edu) will be upgraded from WSUS v2.0 to v3.0 on July 31, 2007. This upgrade will happen in the morning (between 8:30AM-Noon) and result in a brief service outage. This will not affect client Windows updates as they will continually contact the WSUS server until service is restored.

No client side changes are required. The service upgrade should be transparent to the end-users.

The existing "client side targeting" will be preserved. See:  
<http://tech.ait.iastate.edu/win2000/admin/WSUSTips.pdf>

An announcement will posted when the upgrade is completed.
