

## Windows Enterprise Announcement

### July 8, 2009 – WINDC1A Will Be Removed From Service July 14, 2009

The temporary Windows Enterprise Domain Controller "WINDC1A" (windc1a.iastate.edu, 129.186.6.7) will be removed from service July 14, 2009 (Tuesday). This test domain controller was provided on the hardware that will be used upgrade WINDC1 July 21. See the original announcement for the temporary domain controller here:

<http://www.tech.ait.iastate.edu/win2000/admin/Announce.2009.06.01.pdf>

If you have processes manually pointed to WINDC1A for testing make sure you shift them to point to WINDC2-4 before July 14.

### Future Outages on Remaining Domain Controllers

For a current status of the upgrade rollout and scheduled date for upgrade/outage of WINDC1 see:

<http://www.tech.ait.iastate.edu/win2000/admin/rollout.status.2009.pdf>

### Questions

Report any problems/concerns to the Windows Enterprise Admins at [w2k-root-admin@iastate.edu](mailto:w2k-root-admin@iastate.edu). Discussion of issues is always encouraged in the WinAdmin and CCSG support lists so other IT admins can be made aware of them and possibly assist in solving any problems.
