Windows Administrators Meeting
June 9, 2006
Notes (taken by Steve Kunz)

Meeting Started (9:00)

Announcements

- Enterprise WSUS server changes occurred May 8. See:
  http://tech.ait.iastate.edu/win2000/admin/Announce.05.31.06.pdf
- A new version of "PCLPR for Lab Managers" is available in the Windows area of
  www.sitelicensed.iastate.edu. This software will not appear as a link on the normal
  Windows page. After logging into www.sitelicensed.iastate.edu and browsing to the
  Windows area, append "PCLPR" to the URL as follows:
  https://www.sitelicensed.iastate.edu/software/windows/PCLPR
  Note that case IS important on the added term ("PCLPR" must be in caps). Contact
  Beata Pruski (ITS) at bapruski@iastate.edu if you have any questions on this product.

Open Discussion

Steve Kunz (ITS) took the opportunity of little discussion to mention the highlights of
the "student user object service-oriented fields" project. Details on this are now
available as an Enterprise "design" document here:
http://tech.ait.iastate.edu/win2000/admin/StudentObjects.pdf

The question was asked as to whether or not the extension of the current Dell specials
from Tech CYte (formerly the MPC) meant that the normal "back to school" specials
would not occur. A phone call to Mike Broders (mbroders@iastate.edu) at the Tech
CYte indicates that this is true. The current Dell specials and the usual "back to
school" specials are "rolled into one" this summer. Purchases for the specials must
be made by July 28.

Meeting Adjourned (9:55)

Next meeting is scheduled for July 14, 2006
